

SPONSORSHIP

Institute of Marine Research (IMR) has been selected to host the 10th International Marine Technician Symposium - INMARTECH 2016, which will be in Grieghallen in Bergen, Norway, on 4-6 October 2016. INMARTECH is held biannually and have previously been arranged in locations such as USA (2014), The Netherlands (2012) and France (2008).

The objective of INMARTECH is to provide a forum for international exchange of knowledge and experiences between marine technicians on research vessels. More information is available on our website, <http://inmartech2016.imr.no>.

The IMR organizing committee has compiled a list of companies that we see as of particular interest to the attendees and that have an affiliation with IMR through earlier and ongoing deliveries to our research vessel fleet. As a recipient of this letter, Your company is on this list of potential sponsors for the Inmartech 2016 symposium.

Conference sponsorship gives you the opportunity to showcase your company and its products to an audience of engaged conference attendees - including both national and international user groups. Your sponsorship and presence at INMARTECH 2016 will not only provide significant recognition of your company and products, but will also give attendees educational value as they will have the opportunity to individually interact with your product.

A range of sponsorship levels are available to choose from (refer to following pages). We look forward to hearing from you and hope to see you at INMARTECH 2016. Please address any questions to us at inmartech2016@imr.no. Thank you for your consideration.

Per W. Nieuwejaar
Director Research Vessel Department
Institute of Marine Research

Hilde Spjeld
Inmartech 2016 Project manager
